## All-In-One Rubber Wear Course Surfacing Repair Kit

Easily repair non-compliant holes and wear in recreational surfacing with a FIBAR Poured-In-Place Surfacing Repair Kit for wear course repairs. This all-in-one kit is shipped in a bucket and includes 5 square feet\* of pre-selected color rubber granules, 1 utility knife, 1 small brush, 1 container of urethane binder, 1 pair of gloves, and 1 trowel. Kit comes in a wide variety of color mix options - 100% color or 50/50 color/black mix. Patch wear course holes with standard circle patches or create fun shapes to add play value to your surface.

### Repair small holes in 6 easy steps:

- ① Cut out wear course repair area
- ② Brush urethane binder around edge of repair
- ③ Mix binder and granules
- ④ Spread mixture in cut hole
- ⑤ Trowel surface
- ⑥ Secure area for drying

*Full step by step instructions are included with the kit*

*\*5 square feet based on a .5" wear course*
