

Soft, Durable Surfacing for Your Water Park or Water Play Area

We have worked closely with some of the industry's leading water play equipment manufacturers to offer Splash Tread, which is IPEMA certified. It can be used in conjunction with water play equipment that requires ASTM 1292 compliance for impact attenuation and meet all necessary skid requirements.

Perfect for:
Splash Pads
Pool Decks
Marine Platforms

Features

- Will meet compliance standards for fall height attenuation
- Many color choices for design and add value in the surface
- Slip resistant for extra protection
- Non-porous
- Anti-microbial
