

TotTurf®

SHREDDED LOOSE FILL RUBBER

Our rubber mulch is made of recycled content, creating a pliable, resilient, permanent surface to help reduce damage from falls, and to discourage mold, mildew, and insects. This option offers a soft landing and a more natural look. Also, recycling is always a good option. We proudly recycle tires in the US to make this product.

**Perfect for:
Playgrounds &
Landscaping**

3 Nature Inspired Mixes

Rainbow

Rustic

Jungle

Features

- One of the highest impact attenuation ratings
- Soft touch, splinter-free
- Won't blow away or over-compact, saving maintenance and money
- Mold, animal, and insect resistant
- Does not freeze when installed properly
- Pairs well with rubber mats to prevent too much displacement

Basic Specifications

- Product is wire-free, having a free metal content of less than .01%
- Shredded rubber chunks comprised of recycled tire rubber from whole passenger and/or truck tires
- Clean, non-toxic, and does not produce toxic leachate from water draining through the surface
- Most playground installations utilize 6 inches of loose fill rubber material
- Available in 7 colors and 3 custom mixes
- 10 year limited color warranty
