

Tot Turf Standard

Tot Turf Resilient Safety Surfacing is the industry-leading poured rubber surface solution across the US. As a pioneer in unitary accessible safety surfacing, Robertson is known for providing its partners with the highest quality products and installation services. It is a two-layer system composed of a high-quality recycled cushion layer and a wear course made of 1/2" high-quality EPDM or TPV 1-4 mm size rubber granules.

Ideal for
playgrounds of
all ages, outdoor
fitness, trails,
and so much
more.

Tot Turf Supreme

This 1/2" wear course is made from .5-1.5 mm size TPV granules providing enhanced bonding and engineered to better withstand daily wear and tear in high-use playgrounds and color-fading due to UV exposure; making Tot Turf Supreme the highest quality, longest lasting rubber safety surfacing on the market.

Features & Benefits

- 10+ year expected life and 5-10-year warranty options with proper maintenance
